Video Game Analytics API

1.0.0 OAS 3.1

/api/openapi.json

COMP3011 Web Services and Web Data -- Video Game Analytics API. Authenticate via /api/auth/login and use the returned JWT as Bearer token for protected routes.

Authorize

Ask AI

POST `/api/ask` Ask

Auth

POST `/api/auth/register` Register a new user and receive a JWT token

POST `/api/auth/login` Login and receive a JWT token

GET `/api/auth/me` Get current user profile

Games

GET `/api/games` Browse and search game releases with filters

GET `/api/games/search` Search games by title — one result per game, not per release

GET `/api/games/{release_id}` Get full details for a single game release

Developers

GET	`/api/developers`	List developers with portfolio stats
GET	`/api/developers/{developer_id}`	Get developer profile with top 5 games by Metacritic score

Analytics

GET	`/api/analytics/leaderboard`	Top games by metric (meta_score, user_review, total_sales)
GET	`/api/analytics/verdict/game/{game_id}`	Verdict Machine -- game-level verdict by game_id (as returned by /api/games/search)
GET	`/api/analytics/verdict/{game_release_id}`	Verdict Machine -- classifies a game as All-Time Classic, Hidden Gem, Cult Classic etc.
GET	`/api/analytics/controversy`	Games where critics and players most disagreed
GET	`/api/analytics/hidden-gems`	High user scores but overlooked commercially
GET	`/api/analytics/decade-trends`	Gaming trends and stats grouped by decade
GET	`/api/analytics/platform-dominance`	Which platforms dominated each gaming era
GET	`/api/analytics/stats`	Database statistics

Squads

POST	`/api/squads`	Create a new squad
GET	`/api/squads`	List your squads
GET	`/api/squads/{squad_id}`	Get squad with all games
PATCH	`/api/squads/{squad_id}`	Update squad name or description
DELETE	`/api/squads/{squad_id}`	Delete a squad

POST `/api/squads/{squad_id}/items` Add a game to your squad

DELETE `/api/squads/{squad_id}/items/{item_id}` Remove a game from your squad

GET `/api/squads/{squad_id}/dna`
Squad DNA -- average scores and coverage across all games

Battles

GET `/api/battles` List your battle history

POST `/api/battles` Battle two squads head to head using weighted scoring

GET `/api/battles/{battle_id}` Get full battle details with DNA snapshots and weights

default

GET `/api/graphql` Handle Http Get

POST `/api/graphql` Handle Http Post

health

GET `/api/health` Health
